Max-Master[®]

TABLE SERIES

Max-Master® Series

Whether bolted to the floor or freestanding on adjustable glides, the distinctive individual seat/leg design of the Max-Master® tables provides superior stability than traditional pedestal tables. Compression molded composite seats, premium table top and unique steel leg design delivers an exceptional table for continuous daily use in challenging environments.

60", 8 Seat

Rectangle Top
30"x72", 6 Seat

Rectangle Top
30"x96", 8 Seat

*ADA option with legs reconfigured to accommodate wheel chair access.

Features That Matter

Extreme Durability

The extra strength top is attached to a solid steel base with embedded T-Nuts for a secure steel to steel connection that maximizes long-term durability.

Secure Molded Edge

The molded edge is radiused for comfort and pressure fused to the extra strength top, making it permanently fixed, highly sanitary and pick resistant.

Stain & Scratch Resistant Seating

The high-density, color impregnated, compression molded composite seats offer stain and scratch resistance.

Unique Leg Design

The curved, 14-gauge steel legs are fully welded to a vertical seat support. Both the seat and top supports utilize robust steel mounting plates that are welded together for serious structural integrity.

Non-Removable Glides

Tamper resistant, adjustable leveling glides protect floors without risking the safety of residents and staff.

GreenGuard Gold Certified

The highest level of GreenGuard Certification, this product meets strict health-based criteria for VOC emissions and total chemical emissions.

Easy Cleanability

Bleach solutions and hospital-grade cleaners can safely be used for sanitation without affecting the surface material or color.

Acoustic Absorption

Sound deadening tabletop and seat options are available to assist with noise reduction, helping to maintain a calm and soothing acoustic environment.

Bolt-Down Capability

For additional security, this table can be anchored to the floor with an optional bolt-down kit.
